- English - Fluent

About Me

Dedicated and versatile professional with experience in the culinary industry and a passion for software development. A skilled chef transitioning into a career in software development.

Education

Vocational Qualification in ICT, Software Development
SASKY Vocational College (08/2022 - 05/2024)

Basic Degree in Hotel, Restaurant and Catering
Vaasa Vocational College (08/2010 - 06/2013)

Experience

Software developer trainee
Devolution (01/2024 - 04/2024)

I am involved in a project where we are developing a web browser version of a mobile app. The main technologies used in the project are React, TypeScript, Firebase, Redux and SCSS.

Software developer trainee
Gavon (03/2023 - 05/2023)

I had a role in a collaborative effort to develop a game utilizing the Phaser 3 game engine. Our tech stack included JavaScript, TypeScript, Angular, node.js, Express.js, and PostgreSQL.

Chef
Various Restaurants (05/2013 - 03/2024)

I have worked as a chef in various restaurants.

Projects

Recipe Sharing Platform

Currently developing a full-stack web application using React and TypeScript on the frontend, with Node.js, Express, and Passport.js on the backend. Implemented PostgreSQL for data persistence. The platform allows users to create accounts, share favorite recipes, and search for recipes shared by others.

<https://github.com/AnssiPeltola/ReactRecipeSharingPlatform>

Weather Finder App

Weather Finder is a React-based web application leveraging OpenWeather API for accurate weather and geolocation data. It enables users to search for current weather conditions and a 4-day weather forecast for cities globally.

<https://github.com/AnssiPeltola/ReactWeatherFinder>

League of Legends Random Champions Spin Wheel

Interactive web app to randomly select League of Legends champions using a spin wheel. Integrates LoL Champion API with Winwheel.js

<https://github.com/AnssiPeltola/League-of-Legends-Random-Champions-Spin-Wheel>

Certifications

Boomi Associate Integration Developer

Foundational knowledge and skills in designing, developing, and managing integration processes using the Boomi platform.

Boomi Professional Integration Developer

Advanced expertise in complex integration scenarios, including designing, implementing, and managing sophisticated integration processes on the Boomi platform.
