- Flutter

Tools

- Git / GitHub
- VS Code
- Postman
- Flyway
- DBeaver
- CMD

Languages

- Finnish – Native
- English – Fluent

Certifications

- Boomi Professional Integration Developer

Work Experience

Software Developer Intern

Devolution (01/2024 – 04/2024)

Participated in the development of a browser-based version of a mobile application using React, TypeScript, Firebase, Redux, and SCSS. Worked as part of a four-person team, also serving as Scrum Master and Project Manager, with responsibility for task coordination and sprint planning.

Administrative Assistant

Ilmasi Oy (06/2023 – 07/2023)

Provided administrative support using Excel, Word, and email for document preparation and quotation processing. Reviewed quotations from a cost-efficiency perspective, participated in customer communication, and developed scheduled bulk email campaigns.

Software Developer Intern

Gavon (03/2023 – 05/2023)

Actively contributed to the development of a game using the Phaser 3 game engine as part of a development team. Collaborated on the implementation of the project using JavaScript, TypeScript, Angular, Node.js, Express, and PostgreSQL.

Chef

Various Restaurants (05/2013 – 03/2024)

Worked in fast-paced and high-responsibility restaurant environments, developing strong teamwork skills, stress tolerance, and problem-solving abilities in rapidly changing situations

Education

Bachelor of Business Administration (BBA), Business Information Technology

Tampere University of Applied Sciences (08/2025 – nykyinen)

Vocational Qualification in ICT, Software Development

SASKY Vocational College (08/2022 – 05/2024)

Basic Degree in Hotel, Restaurant and Catering

Vaasa Vocational Institute (08/2010 – 06/2013)

Development Projects

Recipe Sharing Platform

Developed a full-stack web application for sharing and discovering recipes using React, TypeScript, Redux, Tailwind CSS, Node.js, Express.js, Passport.js, and PostgreSQL. Implemented user authentication, role-based access control, RESTful APIs, advanced search, pagination, and a Tinder-style swipe interface. Integrated the OpenFoodFacts API to provide ingredient-based recommendations.

TrackDuel

A React-based music discovery platform where users participate in head-to-head track battles. Features include Spotify integration, playlist creation, and an interactive onboarding flow to deliver a personalized music experience.
